1162 SIMPLEX road sweeper - only for front-mounting (mechanical / hydraulic)

	120 cm 113 cm	135 cm 127 cm	150 cm 141 cm
WORKING WIDTH IN ANGLED POSITION			
Basic machine incl.: brush adjustment by spindle, mechanical angling, brush ø 400 mm, 100 % PP Brush segment, support wheels Ø 180 x 50 mm, available with PTO-drive via PTO-shaft, Transmission angle adjustable (PTO shaft included) height of the PTO shaft on the vehicle max. 40 cm or hydraulic drive incl. attachment system, optionally:	2.545,-	2.698,-	2.816,-
A-frame CAT communal with FIXED mounting bracket <i>(see page 26)</i>			
A-frame CAT 0 with FIXED mounting bracket <i>(see page 26)</i>			
Three-point linkage CAT I / II with FIXED mounting bracket <i>(see page 27)</i>			
Quick-hitch for Tichel-Trac TRIO with FIXED mounting bracket			
Quick-hitch for front mowers (direct mounting - adjustment required) with FIXED mounting bracket			
3-D floating system	158,-	158,-	158,-
Attachment system for yard loaders or municipal utility vehicles incl. 3-D floating system	197,-	197,-	197,-
Brush ø 400 mm, 50 % PP / 50 % wire brush segment (not to be used for agriculture)	64,-	69,-	78,-
Brush ø 400 mm, 100 % PP snow brush, for the winter service	55,-	61,-	67,-

1162 Dirt collection equipment

Hopper incl. PU-lip (polyurethane), hydraulic emptying (one double-acting hydraulic drive circuit required) incl. shut-off valve for simple sweeping (no dismounting of hopper required), incl. 3rd support wheel Ø 180 x 50 mm and pendulum on mounting bracket to compensate for ground unevenness.	964,-	1.015,-	1.041,-
--	-------	---------	---------

1162 Options

Hydraulic angling • one double-acting hydraulic drive circuit required - cannot be coupled with further functions	368,-	368,-	368,-
Electro-magnetic commutator 12 V (for vehicles with only one double-acting hydraulic drive circuit)	543,-	543,-	543,-
Side brush ø 500 mm, brush 100 % PP • hydraulic, incl. spring segment and speed adjustment, one simple-acting respectively one double-acting hydraulic drive circuit required - can be coupled with hydraulic emptying and/or hydraulic drive	980,-	980,-	980,-
Water-spray system for side brush	85,-	85,-	85,-
Water-spray system • 12 V intermitting pump, switch board, 100 l water tank and rear 3-point linkage (CAT I / II) for the tank (H2O for rear mounting, only)	1.456,-	1.456,-	1.456,-
Water-spray system • without water tank incl. intermitting pump and switch board	719,-	719,-	719,-
Splash guard for the winter service , extra long, adjustable	186,-	198,-	212,-
Side-marker lamps • prescribed to drive on public roads	(price for 2 pcs.) 260,-	260,-	260,-
Signal flag holders and Signal flags	(price for 2 pcs.) 94,-	94,-	94,-
Colour option • acc. to RAL (RAL 2004 = standard)	244,-	244,-	244,-

Packaging (net)	40,-	40,-	40,-
Our prices are ex works!			

IMPORTANT! Please always specify in orders:
Speed, turning direction and profile of PTO shaft, as well as the attachment system!

Prices for options are only valid for factory fitted original equipment. For retrofits to existing machines, please enquire prices! Special options on request! Prices in €, excl. tax, valid until 31.12.2019*. Errors and omissions excepted.

1751 KOMPAKT road sweeper - only for front-mounting (mechanical / hydraulic)

WORKING WIDTH IN ANGLED POSITION		135 cm 127 cm	150 cm 141 cm	175 cm 165 cm
(80198)	Basic machine incl.: easy brush adjustment via adjusting lever, mechanical angling, splash guard, brush ø 520 mm, 100 % PP-Beeline brush elements in honey-comb shape, a particular bushy brush ensures high durability, support wheels ø 200 x 50 mm, available with PTO-drive via PTO-shaft, height-adjustable gear (included in delivery) or hydraulic drive	2.768,-	2.853,-	3.192,-
	Brush ø 520 mm, 50 % PP / 50 % wire brush elements (not to be used for agriculture)	74,-	86,-	99,-
	Brush ø 520 mm, 100 % PP snow brush, for the winter-service (for retrofit, another type of brush shaft must be mounted, price on enquiry)	66,-	78,-	90,-

Attachment systems

9001	Three-point linkage CAT I / II incl. side levelling and pivoting part with pendulum compensation and screw-lip <i>(see page 27)</i>	713,-	713,-	713,-
9002	A-frame CAT communal incl. side levelling and pivoting part with pendulum compensation and screw-lip <i>(see page 26)</i>	633,-	633,-	633,-
9002	A-frame CAT 0 / I incl. side levelling and pivoting part with pendulum compensation and screw-lip <i>(see page 26)</i>	782,-	782,-	782,-
9003	Attachment system for municipal vehicles incl. side levelling and pivoting part with pendulum compensation and screw-lip; 2 extra stable wheels ø 200 x 50 mm, steel-welded	915,-	915,-	915,-
9004	Attachment system for yard loaders and small wheel loaders incl. pivoting part with 3-D levelling 2 extra strong wheels ø 200 x 50 mm, steel-welded	944,-	944,-	944,-

1751 Dirt collection equipment

	Hopper incl. PU-lip (polyurethane), hydraulic emptying (one double-acting hydraulic drive circuit required) incl. shut-off cock for simple sweeping (no dismounting of hopper required), incl. 3rd support wheel ø 200 x 50 mm (ensures a regular pressure and guide downwards)	929,-	990,-	1.053,-
	High-fill flap inside the hopper, provides approx. + 30 % fill-capacity	94,-	94,-	94,-

1751 Options

	Hydraulic angling • one double-acting hydraulic drive circuit required - cannot be coupled with other functions	368,-	368,-	368,-
	Electro-magnetic commutator 12/24 V, for vehicles with only one double-acting hydraulic drive circuit	543,-	543,-	543,-
	Side brush ø 600 mm (only possible on the right), brush 100 % PP • hydraulic, incl. spring segment and speed adjustment, one simple-acting respectively double-acting drive circuit required - can be coupled with hydraulic emptying and/or hydraulic drive - only possible in combination with hopper	1.059,-	1.059,-	1.059,-
	Water-spray system for side brush	85,-	85,-	85,-
	Water-spray system • 12 V intermitting pump, switch board, 100 l water tank and rear 3-point linkage (CAT I / II) for the tank (H2O for rear mounting, only)	1.536,-	1.536,-	1.536,-
	Water-spray system • without water tank incl. intermitting pump and switch board	719,-	719,-	719,-
	3rd support wheel • for simple sweeping road sweeper, height adjustable, ø 200 x 50 mm	230,-	230,-	230,-
	Extra strong wheels • for hard working conditions and very uneven surfaces, ø 200 x 50 mm, steel-welded	-for 9003 and 9004 incl. 108,- / pc.	108,- / pc.	108,- / pc.
	Splash guard • for the winter service, extra long, adjustable	203,-	203,-	203,-
	Side-marker lamps • prescribed to drive on public roads	(price for 2 pcs.) 260,-	260,-	260,-
	Signal flag holders and Signal flags	(price for 2 pcs.) 94,-	94,-	94,-
	Colour option • acc. to RAL (RAL 2004 = standard)	244,-	244,-	244,-
	Packaging (net)	40,-	40,-	40,-
	Our prices are ex works!			

IMPORTANT! Please always specify in orders:
Speed, turning direction and profile of PTO shaft, as well as the attachment system!

1352 ECO road sweeper (hydraulic / mechanical)

	150 cm	180 cm	230 cm	260 cm
WORKING WIDTH IN ANGLED POSITION	141 cm	169 cm	216 cm	244 cm
Basic machine incl.: mechanical angling, splash guard, strong hydraulic motor, brush ø 520 mm, 100 % PP brush segment, height adjustable brand named wheels ø 200 x 50 mm	1.478,-	1.509,-	1.563,-	2.029,-
Brush ø 520 mm, 50 % PP / 50 % wire brush segments (not to be used for agriculture)	92,-	101,-	115,-	129,-
Brush ø 520 mm, 100 % PP snow brush, for the winter service	72,-	82,-	91,-	102,-
Brush ø 520 mm, 100 % PP brush rings, honey-comb shaped, bushy long-life brush, excellent for coarse dirt (for subsequent retrofit from brush segment to brush rings, another shaft is required; price on enquiry)	150,-	163,-	176,-	190,-

Attachment systems

9001	Three-point linkage CAT I / II, rigid attachment (<i>see page 27</i>)	412,-	412,-	412,-	412,-
9001	Three-point linkage CAT I / II for PTO-drive (<i>see page 27</i>)	461,-	461,-	461,-	-----
9004	Yard loader attachment system / front loader plate, pivoting part with parallelogram and pendulum compensation, incl. height indicator	940,-	940,-	940,-	-----
9005	Fork-tines attachment 140 x 65 mm , pivoting part incl. parallelogram and height indicator	847,-	847,-	847,-	-----
9005	Extra charge for bigger fork-tines (165 x 85 mm)	172,-	172,-	172,-	-----
9002	A-frame CAT communal / 0 / I, pivoting part incl. pendulum compensation and screw-lip (<i>see page 26</i>)	746,-	746,-	746,-	-----
1352	Side levelling	210,-	210,-	210,-	210,-

1352 Dirt collection equipment

	Hopper , mechanical emptying (without PU-lip)	426,-	445,-	475,-	531,-
	PU-lip (polyurethane) in order to avoid that little stones slip onto public roads; reduces considerably dust development and avoids scraping on road carpets	79,-	94,-	118,-	135,-

1352 Options

	Hydraulic emptying (one double-acting hydraulic drive circuit required)	443,-	443,-	443,-	443,-
	Extra strong wheels ø 200 x 50 mm, steel-welded	108,- / pc.	108,- / pc.	108,- / pc.	108,- / pc.
	3rd support wheel only for front mounting ø 200 x 50 mm (<i>required for all attachment systems with a parallelogram</i>)	363,-	363,-	363,-	363,-
	Hydraulic angling (one additional double-acting hydraulic drive circuit required)	438,-	438,-	438,-	438,-
	Electro-magnetic commutator 12/24 V, (for vehicles with only one double-acting hydraulic drive circuit)	692,-	692,-	692,-	692,-
	PTO-drive , Additional charge, only with Three-point linkage (front mounting on enquiry)	692,-	692,-	692,-	—
80198	PTO-shaft	263,-	263,-	263,-	—
	Side brush, ø 600 mm, brush 100 % PP , incl. spring segment and shut-off cock - can be coupled with hydraulic emptying and / or hydraulic drive - only possible in combination with hopper	1.026,-	1.026,-	1.026,-	1.026,-
	Colour option acc. to RAL (RAL 2004 = standard)	244,-	244,-	244,-	244,-

	Packaging (net)	40,-	40,-	40,-	40,-
	Our prices are ex works!				

1382 PLUS road sweeper (hydraulic)

	135 cm	150 cm	180 cm	200 cm	230 cm	260 cm
WORKING WIDTH IN ANGLED POSITION	127 cm	141 cm	169 cm	187 cm	216 cm	244 cm
Basic machine incl.: stable basic frame incl. mounting device; hydraulic drive with a strong hydraulic motor; broom with overrun control; in the return integrated drain line; brush ø 590 mm; 100 % PP WaveLine mixture with CrownLock system, for excellent sweeping results and high longevity; simple brush adjustment via adjusting lever with optimized sweeping angle; mechanical angling; brand-named wheels ø 250 x 50 mm	2.103,-	2.201,-	2.329,-	2.457,-	2.697,-	3.348,-
internal motor	513,-	513,-	513,-	513,-	513,-	513,-
Splash guard for simple sweeping application, extra long (380 mm) incl. splash protection flap	251,-	251,-	268,-	268,-	278,-	289,-
Brush ø 590 mm, 100 % PP brush rings in honey-comb shape no extra charge	-----	-----	-----	-----	-----	-----
Brush ø 590 mm, 50 % PP / 50 % wire brush rings	95,-	95,-	137,-	137,-	179,-	179,-
Brush ø 590 mm, 100 % Snowline brush rings in honey-comb shape, for the winter service	47,-	47,-	69,-	69,-	89,-	89,-

Attachment systems

Three-point linkage CAT I/II rigid attachment (see page 27)	412,-	412,-	412,-	412,-	412,-	412,-
Joint bearing for an optimum bottom conformity (Three-point linkage, front mounting)	126,-	126,-	126,-	126,-	126,-	126,-
A-frame CAT Communal / O / I, incl. pivoting part with pendulum adaptor and screw-lip (see page 26)	743,-	743,-	743,-	743,-	743,-	743,-
Yard loader attachment / front-loader plate incl. pivoting part with parallelogram, pendulum compensation, incl. height indicator	940,-	940,-	940,-	940,-	940,-	940,-
Wheel-telescopic loader attachment (quick-hitch) 3-D floating system w/roller guide, pendulum compensation and height indicator (shows mid-position in levelling) (see page 28)	1.552,-	1.552,-	1.552,-	1.552,-	1.552,-	1.552,-
Fork-tines system, 150 x 60 mm pivoting part with parallelogram and height indicator; incl. quick-locking device	857,-	857,-	857,-	857,-	857,-	857,-
Fork-tines system, 150 x 60 mm 3-D floating system incl. roller floating tunnel, pendulum compensation and height indicator (shows mid-position in levelling); incl. quick-locking device	1.412,-	1.412,-	1.412,-	1.412,-	1.412,-	1.412,-
Extra charge for bigger fork-tines (200 x 100 mm)	172,-	172,-	172,-	172,-	172,-	172,-
Attachment system for municipal utility vehicles (Multicar, ...), pivoting part with pendulum adaptor and screw-lip, incl. side levelling	1.411,-	1.411,-	1.411,-	1.411,-	1.411,-	1.411,-
Attachment plate with lifting system incl. reinforced pivoting part, lifting part with pressure limit, levelling, pendulum compensation and transport securing appropriate for Unimog front-attachment plate DIN 76060: • shape B (size 3) incl. fastening via pivoting screws M30 or clamping screws M24 • shape A (size 5) incl. fastening via pivoting screws M30	-----	-----	-----	2.785,-	2.785,-	2.785,-
Side levelling	210,-	210,-	210,-	210,-	210,-	210,-

1382 Dirt collection equipment

Large hopper with PU-lip (polyurethane) and hydraulic emptying , incl. mechanical shut-off cock for simple sweeping (no dismounting of hopper required), 1 double-acting hydraulic-drive circuit required	1.193,-	1.215,-	1.239,-	1.263,-	1.285,-	1.323,-
High-fill flap inside the hopper, fill capacity approx. +30 %	73,-	73,-	102,-	102,-	102,-	171,-

1382 Options

3rd support wheel (for front mounting, only), Ø 250 x 50 mm (required for all attachment systems with parallelogram and roller floating tunnel) • short version for sweeper without hopper available (same price)	363,-	363,-	363,-	363,-	363,-	363,-
Oil flow controller incl. pressure control valve for an infinitely variable speed adjustment • 90 - 129 liters for vehicles with pump capacity of more than 90 l/min. • 130 liter with 1" connectors; for vehicles with pump capacity of more than 130 l/min.	630,- 1.034,-	630,- 1.034,-	630,- 1.034,-	630,- 1.034,-	630,- 1.034,-	630,- 1.034,-
Hydraulic angling (one additional double-acting hydraulic drive circuit required)	438,-	438,-	438,-	438,-	438,-	438,-
Electro-magnetic commutator 12/24 V, (for vehicles with only one double-acting hydraulic drive circuit)	692,-	692,-	692,-	692,-	692,-	692,-
Water-spray system 12/24 V, intermitting pump and switch board, side brush (if ordered), will also be equipped w/water-spray device • 100 l tank • 200 l tank • without tank	1.224,- ----- 784,-	1.224,- 1.413,- 784,-	1.224,- 1.413,- 784,-	1.224,- 1.413,- 784,-	1.224,- 1.413,- 784,-	1.224,- 1.413,- 784,-
Side brush ø 600 mm, brush 100% PP , incl. spring segment, speed adjustment, shut-off cock and snap closing - can be coupled with hydraulic emptying and / or hydraulic drive - only possible in combination with hopper	1.065,-	1.065,-	1.065,-	1.065,-	1.065,-	1.065,-
Extra strong wheels ø 250 x 80 mm, for hard working conditions and uneven surfaces, (recommended for a working width from 260 cm)	119,-/pc.	119,-/pc.	119,-/pc.	119,-/pc.	119,-/pc.	119,-/pc.
Side-marker lamps (LED); prescribed to drive on public roads (price for 2 pcs.)	260,-	260,-	260,-	260,-	260,-	260,-
Signal flag holders and Signal flags (price for 2 pcs.)	94,-	94,-	94,-	94,-	94,-	94,-
Colour option acc. to RAL (RAL 2004 = standard)	244,-	244,-	244,-	244,-	244,-	244,-
Packaging (net)	40,-	40,-	40,-	40,-	40,-	40,-
Our prices are ex works!						

Prices for options are only valid for factory fitted original equipment. For retrofits to existing machines, please enquire prices! Special options on request! Prices in €, excl. tax, valid until 31.12.2019*. Errors and omissions excepted.

1552 PROFI 660 road sweeper (hydraulic)

WORKING WIDTH IN ANGLED POSITION	200 cm 188 cm	230 cm 216 cm	260 cm 244 cm	280 cm 260 cm
Basic machine incl.: stable chassis with mounting device, power is provided by an internal hydraulic motor (standard); broom w/overrun control, in the return integrated drain line; brush ø 660 mm, 100 % PP WaveLine mixture with CrownLock system, extra thick brush with high durability, simple brush adjustment via adjusting lever optimizing the sweeping angle, mechanical angling, brand-named support wheels ø 250 x 60 mm	3.689,-	3.820,-	4.586,-	5.664,-
Splash guard for simple sweeping application, extra long (380 mm) incl. splash protection flap	270,-	280,-	292,-	308,-
Brush ø 660 mm, 100 % PP brush rings in honey-comb shape	no extra charge	----	----	----
Brush ø 660 mm, 50 % PP / 50 % wire brush rings	160,-	170,-	180,-	192,-
Brush ø 660 mm, 100 % Snowline brush rings in honey-comb shape, for the winter service	81,-	91,-	101,-	112,-

1552 Attachment systems

Wheel loader / telehandler quick hitch system , 3-D floating system w/roller guide, pendulum adapter and height indicator (shows mid-position in levelling) <i>(see page 28)</i>	1.751,-	1.751,-	1.751,-	1.751,-
Fork-tines attachment 150 x 60 mm 3-D floating system w/roller guide, pendulum adapter and height indicator (shows mid-position in levelling), incl. quick-locking device	1.689,-	1.689,-	1.689,-	1.689,-
Surcharge for bigger fork-tines (200 x 100 mm)	172,-	172,-	172,-	172,-
Three-point linkage CAT I / II, 3-D floating system w/roller guide, pendulum adapter and height indicator (shows mid-position in levelling) <i>(see page 27)</i>	1.520,-	1.520,-	1.520,-	1.520,-
A-frame CAT I, 3-D floating system w/roller guide, pendulum adapter and height indicator (shows mid-position in levelling) <i>(see page 26)</i>	1.392,-	1.392,-	1.392,-	1.392,-
Combined attachment system (different combinations possible)	on request			
Attachment plate incl. reinforced pivoting part, hydraulic cylinder w/pressure limit, levelling and pendulum compensation, transport securing, appropriate for Unimog front-attachment plate DIN 76060: <ul style="list-style-type: none">• shape B (size 3) incl. fastening via pivoting screws M30 or clamping screws M24• shape A (size 5) incl. fastening via pivoting screws M30	2.840,-	2.840,-	2.840,-	2.840,-

1552 Dirt collection equipment

Large hopper incl. PU-lip, hydraulic emptying with shut-off cock (mechanical), for simple sweeping (no dismantling of the dirt collector required), high-fill flap inside the collector (approx. + 30% more fill-capacity), integrated 3rd support wheel (Ø 250 x 60 mm) ensures a regular bottom guidance & the dirt collector is constantly kept at an equal height	1.473,-	1.513,-	1.577,-	1.605,-
--	---------	---------	---------	---------

1552 Options

Oil flow controller incl. pressure control valve for an infinitely variable speed adjustment <ul style="list-style-type: none"> • 90 - 129 liters, for vehicles with pump capacity of more than 90 l/min • 130 liters with 1" connectors; for vehicles with pump capacity of more than 130 l/min; for extra big wheel- and telescopic loaders / tractors 	630,- 1.034,-	630,- 1.034,-	630,- 1.034,-	630,- 1.034,-
Hydraulic angling (one additional double-acting hydraulic drive circuit required)	438,-	438,-	438,-	438,-
Electro-magnetic commutator 12/24 V (for vehicles with only one double-acting hydraulic drive circuit)	692,-	692,-	692,-	692,-
Water-spray system 12/24 V with intermitting-pump and switch board, side brush (if ordered) also with spraying device <ul style="list-style-type: none"> • 200 l tank • without tank 	1.413,- 784,-	1.413,- 784,-	1.413,- 784,-	1.413,- 784,-
Side brush ø 600 mm, brush 50% PP / 50% flat steel (further material combinations on enquiry) incl. spring element, speed regulation, shut-off cock and snap closing, - can be coupled with hydraulic emptying and / or hydraulic drive - only possible in combination with hopper	1.178,-	1.178,-	1.178,-	1.178,-
Surcharge: Side brush with hydraulic lowering (one additional double-acting hydraulic drive circuit required)	470,-	470,-	470,-	470,-
Leaves deflector , removes light material from the brush	286,-	286,-	302,-	302,-
Scraping device , straight shape, hydraulic operation (2 hydraulic cylinders), for simple sweeping or with hopper, optimum adaptation to the ground by spring-borne shares, shares can be adjusted and be used both-ways - not possible in combination with a side brush	2.450,-	2.850,-	3.200,-	3.450,-
3rd support wheel ø 250 x 60 mm, only for simple sweeping	552,-	552,-	552,-	552,-
Extra strong wheels ø 250 x 80 mm, for hard work and for very uneven ground	131,-/pc.	131,-/pc.	131,-/pc.	131,-/pc.
Heavy-duty guide rollers (CSE tyres) Ø 306 x 116 mm	339,-/pc.	339,-/pc.	339,-/pc.	339,-/pc.
Side-marker lamps (LED); prescribed to drive on public roads (road traffic act) (price for 2 pcs.)	260,-	260,-	260,-	260,-
Signal flag holders and signal flags (price for 2 pcs.)	94,-	94,-	94,-	94,-
Colour option acc. to RAL (RAL 2004 = standard)	244,-	244,-	244,-	244,-
Packaging (net)	40,-	40,-	40,-	40,-
Our prices are ex works!				

1561 PROFI CHAMP road sweeper (hydraulic)

WORKING WIDTH IN ANGLED POSITION	240 cm 225 cm	280 cm 255 cm
Basic machine incl.: stable basic frame incl. mounting device, hydraulic drive with a strong internal hydraulic motor (standard), broom with overrun control, in the return integrated drain line; brush diameter ø 750 mm, 100 % PP WaveLine brush with CrownLock system, particular dense brush of great durability and very suitable for coarse dirt; simple brush adjustment via adjusting lever with an optimized sweeping angle, mechanical angling; brand-named wheels ø 405 x 110 mm	6.055,-	6.327,-
Splash guard for simple sweeping application, extra long (500 mm) incl. splash protection flap	297,-	305,-
Brush ø 750 mm, 50 % PP / 50% wire brush rings	194,-	210,-
Brush ø 750 mm, 100 % Snowline brush rings, in honey-comb shape, for winter service	101,-	116,-

1561 Attachment systems

Wheel loader / telehandler attachment (quick-hitch system) 3-D floating system with roller guide, pendulum adapter and height indicator (shows mid-position in levelling) <i>(see page 28)</i>	1.893,-	1.893,-
Fork-tines 150 x 60 mm 3-D floating system w/roller guide, pendulum adapter and height indicator (shows mid-position in levelling), incl. quick-locking device	2.385,-	2.385,-
Surcharge for bigger fork-tines (200 x 100 mm)	174,-	174,-
Three-point linkage CAT I / II, 3-D floating system w/roller guide, pendulum adapter and height indicator (shows mid-position in levelling) <i>(see page 27)</i>	1.867,-	1.867,-
Three-point linkage CAT I / II (rear) rigid attachment, mounted on a slewing ring <i>(see page 27)</i>	1.533,-	1.533,-
A-frame CAT I, 3-D floating system w/roller guide, pendulum adapter and height indicator (shows mid-position in levelling) <i>(see page 26)</i>	1.867,-	1.867,-
Attachment plate incl. lifting system w/reinforced frame, hydraulic cylinder w/pressure limit, levelling and pendulum compensation, transport securing, appropriate for Unimog front-attachment plate DIN 76060: <ul style="list-style-type: none"> • shape B (size 3) incl. fastening via pivoting screws M30 or clamping screws M24 • shape A (size 5) incl. fastening via pivoting screws M30 	2.960,-	2.960,-

1561 Dirt collection equipment

Large hopper incl. PU-lip (polyurethane), hydraulic emptying with mechanical shut-off cock for simple sweeping (no dismounting of hopper required), high-fill flap inside the hopper for approx. +30% fill capacity; integrated 3rd support wheel ø 405 x 110 mm, to ensure a regular bottom guidance; hopper is constantly kept at an equal height	1.874,-	1.925,-
Rear three-point linkage:		
Hopper , without 3rd support wheel <i>(3rd support wheel see below --for change to front mounting-- 677,- Euro)</i>	1.195,-	1.256,-

1561 Options

Oil flow controller incl. pressure control valve for an infinitely variable speed adjustment <ul style="list-style-type: none"> • 90 - 129 liters, for vehicles with pump capacity of more than 90 l/min • 130 liter with 1" connectors; for vehicles with pump capacity of more than 130 l/min; (big wheel-/telescopic loaders/tractors) 	630,- 1.034,-	630,- 1.034,-
Hydraulic angling (1 additional double-acting hydraulic drive circuit required)	438,-	438,-
Electro-magnetic commutator 12/24 V (for vehicles with only one double-acting hydraulic drive circuit)	692,-	692,-
Water-spray system incl. 12/24 V pump w/intermission function and protection against dry run and switch board; side brush (if ordered) will also be equipped w/water-spray device <ul style="list-style-type: none"> • 200 l tank • 400 l tank • without tank 	1.413,- 2.326,- 784,-	1.413,- 2.326,- 784,-
Side brush ø 750 mm, brush 50% PP / 50% flat steel , incl. spring segment, speed adjustment, shut-off cock and quick-locking system <ul style="list-style-type: none"> - can be coupled with hydraulic emptying and / or hydraulic drive - only possible for simple sweeping 	1.255,-	1.255,-
Surcharge: Side brush with hydraulic lowering (one additional double-acting hydraulic drive circuit required)	470,-	470,-
Leaves deflector , removes light material from the brush	286,-	302,-
Scraping device , hydraulic operation (2 hydraulic cylinders), height adjustment by spindles, for simple sweeping and sweeping with hopper, optimum bottom guidance by spring-borne shares, shares can be adjusted and be used both-way, dirt is led to the road sweeper <ul style="list-style-type: none"> - not possible in combination with a side brush 	3.950,-	4.250,-
3rd support wheel ø 405 x 110 mm (for simple sweeping and rear three-point attachment)	677,-	677,-
Side-marker lamps (LED); for the public road traffic (price for 2 pcs.)	260,-	260,-
Signal flag holders and signal flags (price for 2 pcs.)	94,-	94,-
Colour option acc. to RAL (RAL 2004 = standard)	396,-	396,-

Packaging (net)	70,-	70,-
Our prices are ex works!		

Prices for options are only valid for factory fitted original equipment. For retrofits to existing machines, please enquire prices! Special options on request! Prices in €, excl. tax, valid until 31.12.2019*. Errors and omissions excepted.

1581 PROFIGIGANT road sweeper (hydraulic)

	260 cm	290 cm	320 cm	350 cm
WORKING WIDTH IN ANGLED POSITION	236 cm	263 cm	290 cm	317 cm
Basic machine incl.: 3-D levelling (swivelling part incl. levelling and roller floating tunnel), simple brush adjustment via adjusting-lever, 2 internal motors (incl. oil-flow controller > 90 liters, 1" hydraulic connectors), broom with overrun control, splash guard, brush ø 800 mm, 100 % PP-Beeline brush rings in honey-comb shape, particular dense brush of great durability and very suitable for coarse dirt; brand-named wheels ø 410 x 145 mm				
	10.121,-	10.963,-	12.128,-	13.293,-
Brush ø 800 mm, 50 % PP / 50 % wire brush rings	261,-	291,-	330,-	371,-

Attachment systems

9018	Wheel loader-/ telehandler attachment (quick-hitch) incl. levelling and height indicator (shows mid-position in levelling) <i>(see page 28)</i>	2.376,-	2.376,-	2.376,-	2.376,-
9018	Three-point linkage CAT I / II incl. levelling and height indicator (shows mid-position in levelling); <i>(see page 27)</i>	1.913,-	1.913,-	1.913,-	1.913,-

1581 Dirt collection equipment

	Large hopper incl. PU-lip (polyurethane), high-fill flap inside the hopper, approx. +30 % fill-capacity, hydraulic emptying via 2 cylinders with mechanical shut-off cock for simple sweeping (no dismounting of the hopper required), incl. 3rd and 4th support wheel ø 410 x 145 mm, ensures a regular pressure downwards (hopper is constantly kept at an equal height)	3.944,-	4.402,-	4.856,-	5.312,-
--	--	---------	---------	---------	---------

1581 Options

	Hydraulic angling via 2 cylinders (one additional double-acting hydraulic drive circuit required)	1.337,-	1.337,-	1.337,-	1.337,-
	Electro-magnetic commutator 12/24 V, (for vehicles with only one double-acting hydraulic drive circuit)	692,-	692,-	692,-	692,-
	Water-spray system incl. 2 x 12/24 V intermitting-pumps and 2 x 200 l tanks, switch board, spray-lip in the rear (Side brush, if ordered, will be with water kit, too)	2.326,-	2.326,-	2.326,-	2.326,-
	Side brush ø 850 mm, brush 50 % PP / 50 % wire, incl. spring segment, speed adjustment and shut-off device - can be coupled with hydraulic emptying and / or hydraulic drive - only possible in combination with the hopper	2.190,-	2.190,-	2.190,-	2.190,-
	Surcharge: Side brush with hydraulic lowering (1 additional double-acting hydraulic drive circuit required)	470,-	470,-	470,-	470,-
	3rd and 4th support wheel for simple sweeping application without hopper, only brand-named wheels Ø 410 x 145 mm	1.894,-	1.894,-	1.894,-	1.894,-
	Side-marker lamps (LED); prescribed to drive on public roads (price for 2 pcs.)	260,-	260,-	260,-	260,-
	Signal flag holders and signal flags (price for 2 pcs.)	94,-	94,-	94,-	94,-
	Colour option acc. to RAL (RAL 2004 = standard)	468,-	468,-	468,-	468,-

Packaging (net)	75,-	75,-	75,-	75,-
Our prices are ex works!				

1781 BIG road sweeper (hydraulic)

	120 cm	150 cm	180 cm	210 cm
Bucket sweeper incl.: compact / wheel loader hitch (quick-hitch system); incl. large bucket to collect dirt, wear & tear lip / knives tightly welded onto the bucket (increases the longevity of the bucket), strong internal hydraulic motor incl. overpressure protection, brush has an optimum pressure downwards by its specific weight, simple brush adjustment, brush ø 600 mm, 100 % PP-Beeline brush rings in honey-comb shape, very bushy long-life brush, excellent for coarse dirt	3.985,-	4.390,-	4.765,-	5.899,-
Angle (approx. 25 degrees) to optimise the tilting-angle (allows high dumping), firm welding between bucket and quick-hitch system	265,-	265,-	265,-	265,-
Strengthening package for continuous operation: <ul style="list-style-type: none"> • wear & tear lip, made of armour steel • screw-under knives (bottom & side) made of armour steel 500 HB; lasts twice as long, simply by turning 	439,-	477,-	524,-	644,-
Brush ø 600 mm, 50 % PP / 50 % wire brush rings	121,-	121,-	150,-	150,-

1781 Options

Hopper opening by 2 hydraulic cylinders (additional double-acting hydraulic drive circuit required) <i>(only possible for initial equipment)</i>	1.190,-	1.190,-	1.190,-	1.190,-
Water-spray system with hopper opening by 2 hydraulic cylinders incl. water tank, 12 V intermitting pump and switch board <ul style="list-style-type: none"> • 100 liter tank • 200 liter tank 	—	1.224,-	1.224,-	1.224,-
	—	—	—	1.413,-
Electro-magnetic commutator 12/24 V (for vehicles with only one double-acting hydraulic drive circuit)	692,-	692,-	692,-	692,-
Water-spray system incl. water tank, 12 V intermitting-pump and switch board <ul style="list-style-type: none"> • 100 liters • 200 liters 	1.224,-	1.224,-	1.224,-	1.224,-

Water-spray system for side brush	85,-	85,-	85,-	85,-
Side brush ø 600 mm, mixed brush 50 % PP / 50 % wire , incl. spring segment - can be coupled with hydraulic emptying and / or hydraulic drive	1.298,-	1.298,-	1.298,-	1.298,-
Colour option acc. to RAL (RAL 2004 = standard)	244,-	244,-	244,-	244,-

Packaging (net)	40,-	40,-	40,-	40,-
Our prices are ex works!				

1821 IDEAL 650 road sweeper (hydraulic)

		130 cm	150 cm	180 cm	210 cm
Basic machine incl.:					
strong internal hydraulic motor/w double pressure limit valve, pendulating main brush incl. pressure adjustment downwards, large hopper with hydraulic emptying, PU-lip (polyurethane), dust protection covering, 3rd support wheel, brush Ø 650 mm, 100 % PP mixture for fine and coarse dirt, brand-named wheels Ø 250 x 60 mm		4.931,-	5.330,-	5.728,-	5.915,-

Attachment systems

9005	Fork-tines system 150 x 70 mm , incl. 3-D levelling and quick-locking system	782,-	782,-	782,-	782,-
9005	Extra charge for bigger fork-tines (210 x 110 mm)	201,-	201,-	201,-	201,-
9012	Combined fork-tines / wheel loader attachment (quick-hitch) incl. 3-D levelling	1.455,-	1.455,-	1.455,-	1.455,-
9029	Combined three-point linkage / fork-tines attachment	1.455,-	1.455,-	1.455,-	1.455,-

1821 Options

Water-spray system					
12/24 V switch board and intermitting-pump, side brush (if ordered) equipped with water-spray device, too					
• 100 l tank		1.224,-	1.224,-	1.224,-	1.224,-
• 200 l tank		1.413,-	1.413,-	1.413,-	1.413,-
Side brush ø 750 mm, brush 100 % PP , with shut-off cock					
- can be coupled with hydraulic emptying and / or hydraulic drive		1.311,-	1.311,-	1.311,-	1.311,-
Extra strong wheels ø 250 x 80 mm, for hard working conditions and uneven surfaces		131,-/pc.	131,-/pc.	131,-/pc.	131,-/pc.
Side-marker lamps (LED); prescribed to drive on public roads (price for 2 pcs.)		260,-	260,-	260,-	260,-
Oil flow controller incl. pressure control valve for an infinitely variable speed adjustment >90 liters, for vehicles with pump capacity of more than 90 l/min		630,-	630,-	630,-	630,-
Colour option acc. to RAL (RAL 2004 = standard)		244,-	244,-	244,-	244,-

Special options

9030	Separate and independent hydraulic system				
incl. oil tank (Makes the sweeper independent from the carrier-vehicle. Oil mixture is eliminated, in case that various carrier-vehicles are used.)					
• 13 HP Honda GX 390 gasoline engine (Please enquire delivery time)		4.268,-	4.268,-	4.268,-	—
• 10 HP Yanmar diesel engine		5.688,-	5.688,-	5.688,-	—

1911 Weed brush WB 750 for wheel loaders, communal vehicles, tractors, yard loaders

Basic machine incl.:

Mechanical inclination adjustment (upper link), mechanical lateral displacement (plug-in by bolt), rubber protection cloth, parking stand, Danfoss OMS Hydr. motor,

Brush ø 750 mm, **Flat wire bunches**

2.484,-

Brush ø 750 mm, **Rope wire bunches**, plastic covered, screwable, 22 pcs.

(Please note: For the retrofitting to rope wire bunches, another type of brush plate is required.)

(surcharge)

347,-

1911 Attachment systems

Three-point linkage CAT I / II (see page 27)

404,-

Attachment system for municipal utility vehicles (Multicar, ...)

404,-

A-frame CAT Communal / 0 / I (see page 26)

301,-

Wheel- / Yard loader attachment (quick-hitch)

476,-

Fork-tines system, 150 x 60 mm

583,-

1911 Optional equipment

Guide wheel / support wheel, hight-adjustable: with castor 200 x 50 mm (< 0,4 m³ bucket capacity)
with castor 250 x 80 mm (> 0,4 m³ bucket capacity)

281,-
375,-

Speed regulation

148,-

Hydr. inclination adjustment of the brush (1 additional double-acting control circuit necessary)

325,-

Hydr. lateral displacement, stroke length 450 mm (1 additional double-acting control circuit necessary)

497,-

Electro-magnetic switching 12 V, (6/2-way or 8/3-way control valve)

for vehicles with only one or with two double-acting hydraulic control circuits

692,-

Water-spray system 12 V intermitting pump, switch board, 100 l water tank and

- rear 3-point linkage (CAT I / II) for the tank (H2O for rear mounting, only), 1 x spray nozzle or
- mounting on Hydro Drive, 1 x spray nozzle

1.456,-

Colour option acc. to RAL (RAL 2004 = standard)

244,-

IMPORTANT When ordering, please specify: The vehicle's quantity of hydraulic circuits and hydraulic power (l/min.)

1901 Weed brush WB 750 for excavators up to 6 t

Basic machine incl.:

Mechanical inclination adjustment (upper link), rubber protection cloth, Danfoss OMS Hydr. motor,

Brush ø 750 mm, **Flat wire bunches**

2.114,-

Brush ø 750 mm, **Rope wire bunches**, plastic covered, screwable, 22 pcs.

(Please note: For the retrofitting to rope wire bunches, another type of brush plate is required.)

(surcharge)

347,-

1901 Attachment systems

Quick-hitch for mini excavators (MS 01 / MS 03, other attachment systems on request available)

179,-

1901 Optional equipment

Colour option acc. to RAL (RAL 2004 = standard)

244,-

1941 Hydro Drive for vehicles without sufficient oil capacity

Basic machine incl.:

Oil tank with approx. 55 litres volume and oil sight glass for easy oil level check; oil filter for a good and lasting oil quality;

internal hydraulic pump, drive via PTO shaft, PTO speed: 540 rpm, approx. 32 l/min at 130 bar -
1000 rpm, approx. 60 l/min at 130 bar -

Three-point linkage CAT I with screw bar (see page 27) other attachment systems on request

1.985,-

Packaging (net)

40,-

1301 Salt spreader TS 120 / 200

	120 Litres	200 Litres
Basic equipment incl.: <ul style="list-style-type: none"> - 12 volt operation, ideal for vehicles with little or no hydraulic power - Central control unit, allows comfortable control of the spreading width and quantity from the driver's seat - Equipped with agitator (supported on both sides) as standard, for loosening and improvement of the salt flow, avoids bridging - Freely adjustable rotation speed, ensures the optimum dosage - Completely made of 2.5 mm stainless steel, for a long life - Plastic container with level indicator and intervention protection incl. loss-safe hinged lid - Central setting of throwing blade, for adjusting the spreading pattern - Spreading width up to 6 m 	2.274,-	2.596,-

1301 Attachment systems

Screw-on bracket - Tow bar hitch for wheel / yard loaders or forklifts , height-adjustable; allows an easy attachment and tilting of the salt spreader, without having to dismount the tow coupling	577,-	577,-
Three-point linkage CAT I / II / 1N (<i>see page 27</i>)	206,-	206,-
A-frame	248,-	248,-

1301 Options

Lighting unit LED 12/24 V, adjustable, with indicator and brake/ rear light function	404,-	404,-
Packaging (net)	40,-	40,-
Our prices are ex works!		

1601 Basic equipment / Specifications

Basic machine, ready for immediate operation, width 92,5 cm incl.:

- **Two double-acting hydraulic drive circuit**
- Leakage port
- Hydraulic lifting-system for various tools
- Three pneumatic wheels (field-tyres)
- **GFK-bonnet**, incl. swivelling system
- **Kubota** Diesel engine
- Hydraulic oil flow: 25 l/min at 3200 rpm
- 2 cylinder (water-cooled)
- 10,3 kW (14 HP) at 3200 rpm
- Hour meter
- Turning radius (cm): 92/146 (inner/outer)
- Electric start
- Two driving speeds
- Forward / backwards
- Hydraulic all-wheel drive
- **Hydraulic steering**
- **Quick-hitch system** on the carrier-vehicle side for tools

Total price

13.452,-

1601 TRIO 3 cylinder Basic equipment / Specifications

Basic machine, as described above, but with:

- **Kubota** Diesel engine, **3 cylinder** (water-cooled), 14.9 kW (20 HP) at 3600 rpm

Total price

14.408,-

1601 Optional equipment

Lawn tyres for grassed areas , in order to avoid damage done to the green	371,-
Rear weights 60 kg, screwed	461,-
Rollover bar	975,-
Weather protection roof , transparent (delivery in combination with rollbar, only)	349,-
Towing device (tow coupling with ball head)	242,-
LED working lights , front and rear	355,-
Tyre fill	
- with magnesium chloride to weight the vehicle	108,- / pc.
- with polyurethane (PU), serves as a protection against flat tyres	187,- / pc.
Motor preheating system , 230 V	312,-
Hydraulic upper link , ideal for working with the high-dump bucket, 1 double-acting hydraulic drive circuit required - not suitable for bedding tools	334,-
Colour option , acc. to RAL (RAL 2004 = standard)	505,-

Packaging Tichel-Trac, for initial equipment, for 3 tools max. (net)

70,-

Our prices are ex works!

Tools

1643	Bedding tool „E“ (automatic fill)	Basic container 450 liters, conveyor with hydraulic drive (32 ccm engine), adjustable external dosing plate, agitator shaft as prevention of material bridging, infinitely variable speed adjustment of the agitator shaft and the conveyor (for a more precise regulation of the spreading portion); Agitator shaft for bedding tools without side brush: - 7 straight agitator blades, 2 outer cranked agitator blades (recommended for heavy spreading material; deep-bed cubicles) Agitator blade for bedding tools with side brush (price for side brush see here below): - 8 cranked agitator blades (7 straight agitator blades, loose), container with metal sheet insert inside, additional option for dosing; (recommended for light spreading material; high-bed cubicles) 5.172,- (Further options for initial equipment possible upon former agreement with the technical department/sales department) • Quick-hitch for Trio (auto fill) incl. tipping device 1.127,- • Quick-hitch for Trio (manual fill): rigid and direct mounting on the Trio 427,- • Cover plate to protect the bedding material against humidity (also suitable for top frames for basic container) 421,- • Slurry scraper , working width 145 cm 422,- • Side brush ø 750 mm , 100% PP (for high-bed cubicles in cowhouses) • hydraulic adjustment via hydraulic cylinder, incl. tipping device 1.449,- • Side brush ø 850 mm , 100% PP (for high bed cubicles) 1.557,- • Container extension (to increase fill capacity) • + 170 liters (total capacity 620 liters) for <u>light</u> material 161,- • + 375 liters (total capacity 825 liters) for <u>light</u> material (restricted visibility for the operator) 281,- • Quick-hitch adaptor for TRIO 232,- (recommended for heavy bedding material: tyres with PU-fill - see page 22)
1623	Bedding tool „F“ (manual fill)	Basic container 160 liters, incl. worm conveyor, conveyor belt with hydraulic drive (32 ccm engine), incl. infinitely variable speed adjustment of worm conveyor and conveyor belt (for a more precise regulation of the spreading portion) 5.194,- Extra charge TRIO hitch-system 427,- • Liquid manure scraper , working width 145 cm 422,- • Side brush ø 750 mm , 100% PP (for high-bed cubicles in cowhouses) • hydraulic adjustment via hydraulic cylinder, incl. tipping device 1.547,- • Side brush ø 850 mm , 100 % PP (for high-bed cubicles) 1.655,- • Quick-hitch adaptor for TRIO (allows a quick change of the various working tools) 232,-
1651	Slurry scraper	2 parts , V-shaped, max. width 1300 mm , height 350 mm, with double-lip, adjustable incl. quick-hitch 965,- • hydraulic angling of both scrapers (left and right) 229,- (not possible in combination with side brush) • Side brush for slurry scraper , 100 % PP, ø 750 mm, incl. hydraulic angling 1.182,-
2243	Rubber blade	Width 1600 mm , hydraulically adjustable (2 cylinder) 1.408,-
1631	Food turner	110 cm incl. quick-hitch, hydraulic capacity from 20 to 50 l/min max. at 160 bar Quick-hitch for TRIO 2.624,- • Concentrated feed distributor to add on food turner 1.256,- • Cover for distributor 227,-
9004		• Yard loader attachment incl. height compensation via parallelogram 950,-
1162	Road sweeper	Simplex 120 cm (see page 4)
1192	Snow blade	L-SK 125 cm (see page 15)
2009	Radial brush	ø 1200 mm , 100 % PP, incl. rubber curtain for swath sweeping and quick-hitch 1.616,-
1662	Mulching mower	110 cm ; 2 mulching blades; hydraulic drive via one hydraulic motor per blade, 4 guide wheels Ø 180 x 50 mm, height adjustment via spacer rings on wheels; 3-D levelling; required oil volume: 25 liters at 150 bar; incl. quick-hitch for TRIO 2.443,-
1665	Weed brush	Ø 750 mm , Brush type: 100 % flat wire 1.357,- Brush type: flat wire bunches and flat steel 1.571,- Brush type: 2-rowed, flat wire bunches 1.536,- incl. hydraulic pivoting device (right / left) via two cylinders, 2 height-adjustable support wheels 150 x 50 mm, anti-clockwise/ clockwise rotation with mechanical inclination adjustment of the brush, variable rubber protection cloth
1685	High-dump bucket	width: 102 cm , for light materials; volume: 210 l, hydraulic dumping, optimal with hydraulic top link on the TRIO (see page 22).. 1.428,-

Packaging tool (net)

Our prices are ex works!

1675 Basic equipment / Specifications „MINI 2 M“

Basic machine incl.:

(width: 830 mm, height: 1260 mm, length: 1670 mm, weight 250 kg)

Ready for immediate operation, equipped with:

- Briggs & Stratton Series 950E, 1-cylinder air-cooled petrol engine
- E-Starter and reversing starter
- 4,9 kW (6,6 HP / 3600 rpm)
- Hydrostatic front wheel drive via V-belt
- Forward: 6,3 km/h, backwards: 5,5 km/h
- Parking brake operated via hand lever
- Mechanical steering via guiding linkage
- Turning radius 490 mm (inner)
- Three pneumatic tyres (field tyres)
- Guard bracket for rear wheel
- Mechanical lifting-device incl. quick-hitch
- Hour meter
- Splash-proof ignition lock

4.141,-

1675 Basic equipment / Specifications „MINI 2 H“

Basic machine incl.:

(width: 835 mm, height: 1260 mm, length: 1690 mm, weight: 280 kg)

As described above, but with:

- Honda GXV 340, 1-cylinder air-cooled petrol engine
- 6,6 kW (9 HP / 3600 rpm)
- Forward: 6,3 km/h, backwards: 5,5 km/h
- 1 x double-acting hydraulic drive circuit
- Hydraulic lifting-device incl. quick-hitch
- Single-acting lifting unit in floating position for levelling
- Working hydraulic: 9,8 l/min at 180 bar
- 16,5 liters Hydraulic tank

6.045,-

1446 Tools

1675	Tyre fill with polyurethane (PU) , serves as a protection against flat tyres and for improved traction	123,- / pc.
	Slurry scraper 105 cm , V-shaped, wear-resistant PU-double-lips (polyurethane), ensure simple & easy cleaning of slatted floors, even in the narrowest space	469,-
	Slurry scraper 105 cm , (equipment as described above) incl. side brush Ø 600 mm , 100% PP, mounted on the slurry scraper, with hydraulically swiveling, height is mechanically adjustable	(only for H) 1.447,-
	Fodder push blade / snow blade 135 cm , right and left swiveling, incl. wear-resistant clearing lip, to lay fodder and to clean the feed table simultaneously; applicable also for snow clearance	490,-
	Fodder push blade / snow blade 135 cm , (equipment as described above) incl. hydraulic angling	(only for H) 749,-
	Sweeper 100 cm , brush Ø 320 mm, 100 % PP, wheels Ø 140 mm, internal hydraulic motor, incl. splash guard for simple sweeping application, levelling • Hopper , mechanical emptying, incl. simple sweeping mode	(nur für H) 1.010,- 295,-
	Bedding tool „EL“ with electric drive (24 V) , volume 48 litres , battery-powered, max. time limit 30 mins, incl. charger; for materials such as: sawdust, straw meal, lime; incl. infinitely adjustable dosing slider; variable speed regulation of the conveyor; distribution on the right in driving direction; position of the spreader: rear, above the 3rd wheel	2.519,-
	Radial brush Ø 1050 mm , 100% PP, hydraulic, clockwise/anti-clockwise rotation • incl. rubber curtain for radial brush	(only for H) 775,- 96,-
	Radial brush Ø 1050 mm , (equipment as described above) incl. deflector plate (left) for a thorough cleaning of the feed alley	(only for H) 890,-
	Weed brush Ø 750 mm , Brush type: 100 % flat steel Brush type: flat wire bunches and flat steel incl. mechanical pivoting device (right / left), parking stand, anti-clockwise/ clockwise rotation with mechanical inclination adjustment of the brush, variable rubber protection cloth	(only for H) 983,- (only for H) 1.192,-
	High-dump bucket , width: 87 cm, volume: 50 l, hydraulic dumping	(only for H) 700,-

1432 FARM-CLEAN (Hand-guided working tool)

The Tichel "FARM-CLEAN"

has a strong Honda GCV 160 gasoline engine of 5,5 HP / 4 KW, distinguishing itself by a great power and smooth run. The fully galvanized machine is driven by a powerful hydraulic aggregate with forward gear and reverse speed (rod steering / no Bowden wires). Large field wheels (big ground clearance) transfer forces optimally to the ground and thus the capacity is completely exhausted. Standard equipment includes hydraulic connections for the attachment of the various tools, which can be mounted / dismounted toolless.

1.994,-

- **Continuously variable traction drive** up to 3,7 km/h, activation via rods and adjusting wheel (no Bowden cables)

394,-

- **Special tyres**, extra large field tyres 16 x 6.50 x 8 (ø 400 mm)

Quality „made in Germany“!

Again and again working machines and tools from TUCHEL set a new course in agriculture and construction business. In our modern manufacturing plant in Salzbergen our highly qualified personnel manufacture well over 3.000 machines per year. Our product range goes from road sweepers, snow blades and snow ploughs to hand-guided machinery and vehicles. Whether road sweepers, snow blades, hand-operated machines or multifunctional all-wheel-drive vehicles: Tuchel counts on quality and only uses high-quality components, such as eg. motors from Sauer Danfoss. That's another good reason for making Tuchel to your reliable business partner!
